Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-5, 9, 10, 12, drawn to a system for processing a simplified plastic container filled with a hot product.

Group II, claim(s) 13-16, 19, 21, drawn to a method for processing a plurality of plastic containers.

Group III, claim(s) 23-27, drawn to a container handling system.

Group IV, claim(s) 30-34, drawn to a method for processing a plurality of plastic containers with a vacuum panel incorporated into each container bottom.

Group IIV, claim(s) 35-39, drawn to a method of making and filling a container.

Group VI, claim(s) 40-53, drawn to a system for processing a plastic container.

Group VII, claim(s) 54, drawn to a system for processing a plastic container.

The inventions listed as Groups I-VII do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Groups II-VII lack the technical features of means for supporting, during the transporting, the container body having the projection extending from the container body, means for pushing the projection extending from the cooled container body into the interior of the container body, means for blow molding a parison to form the container body, which was disclosed by Group I;

Groups III-VII lack the technical features of sealing while supporting from respective neck portions the filled container bodies, feeding a plurality of container holders, which were disclosed by Group II;

Groups IV-VII lack the technical features of a conveyor configured to move the containers with a vacuum panel surface on a bottom surface thereof to and from a filling section of the container processing system, which were disclosed by Group III;

Groups IIV-VII lack the technical features of carrying each of the sealed and filled extended container down the production line while supporting the sealed and filled container by the standing ring, each of the container body has a smooth sidewalls, the carrying includes passing each of the plurality of plastic containers through a cooling apparatus, which were disclosed by Group IV;

Groups VI&VII lack the technical features of blow molding a parison to form a container body, inverting the projection to extend inwardly from the base, which were disclosed by Group IIV;

Group VII lack the technical features of means for blow molding, means for inverting the projection, pushing reduces distortion caused by a vacuum created in the container, which were disclosed by Group VI.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
